

TOURNA

2025-2026 Catalog

UNIQUE

To our valued Customers

We started our business with a better grip product in 1972. The main office was in a two bedroom apartment with a three year old and a newborn. Today, the two babies, Mike and Kevin are key employee owners creating innovative, game improving products. We take pride in being a USA family owned and operated business.

Over 60% of our products are made in USA. The products we do import are made in molds we own. The imported components are inspected, assembled and packaged in our plant. Our prices always remain sharp since we are not burdened with fat layers of big companies. We thank you for the 53 years of association and welcome you if you have not done so yet.

Which one of these is Tourni Grip?

Red tape is our signature statement for the Light Blue Color trademark since 1977. Companies force endorsement players to use a different color finishing tape. But no matter what the color of tape is, if it's Light Blue Color® on the racquet, it's Tourni Grip®.

Why is TOURNA GRIP the best selling grip in the world?

- No other grip performs as well when wet. Other overgrips become slippery after brief use. Tourni Grip grabs you back while soaking up the sweat.
- It is a proprietary formula invented in the USA in 1977. Nothing like it existed before and no imitators have duplicated its moisture absorbent performance.
- All other grips are imported into the USA. We take special care in making a gold standard performing grip in the USA.

Wrap the grip in the right direction to get a better handle on the game

RIGHT HANDERS

All grips should be applied at the bottom of the handle with the grip slanting upward from right to left.

This way the grip will fit the natural shape of the hand and will tighten with tension during impact with the ball.

Right hander wrap direction

LEFT HANDERS

All grips should be applied at the bottom of the handle with the grip slanting upward from left to right.

See the photos for visual application

Left hander wrap direction

DRY FEEL TOURNA GRIP

Grips

- Ultimate grip for sweaty conditions
- Gets tackier when wet like no other grip
- When top side wears out, re-wrap using the under side. No other overgrip can do this.
- The gold standard of sweat absorbing grips

HOT - HUMID CONDITIONS

MEGA TAC®

Amazing Massive Tack that Lasts!

Grips

WARM - COLD (non-humid)

- Proprietary tacky PU coating delivers maximum gripping power
- The back side of grip is tack free leaving no residue on the original grip
- Other tacky grips lose their tack quickly while Mega Tac lasts
- A must grip for players with a dry hand condition
- **Delivers a firm, confident swing every time**

TAC-10XL-BK (10 pack - 6/cs)

Moderate Tacky Feel!

Ideal for warm to cooler weather

Some players prefer a tacky, wet grip. TOURNA TAC gives a tacky feel while absorbing sweat to minimize slippage. Others grips made in the far east slip after only a brief play. Recreational players do not have 3+ racquets to switch to when their grip starts to slip.

Tourna Tac delivers an absorbent, non-slip tacky grip that lasts during long matches.

30 pack

TAC-30XLB - Light Blue (30 pack - 3/cs)
TG-30XLW - White (30 pack - 3/cs)
TAC-30XLP - Pink (30 pack - 3/cs)
TAC-30XL-BK - Black (30 pack - 3/cs)

36 assorted singles

TG-2-36J - JAR - 36 single rolls, 9 of each color

SOFT TAC™ Neon Overgrip

3 pack

Neon Colors

Blue Camo

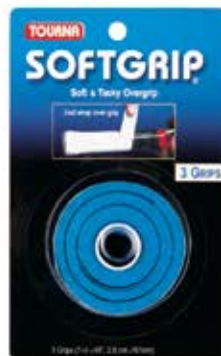

Soft Tac is soooo soft to the touch yet has a pleasant tack that grips you back. It will prevent slippage and gives you a dependable, long lasting grip.

Lasts a long time
3 grips on roll

ST-NG Neon Green (6/cs)
ST-NY Neon Yellow (6/cs)
ST-CAM Camo (6/cs)

SOFTGRIP® Overgrip

3 pack

Known for its soft, luxurious, tacky feel since 1984. Previous national advertising with legendary Vic Braden (Tennis Hall of Fame) and a sharp price have made Soft Grip a favorite with tennis players for years.

STG-1 colors: White, Yellow, Black, Blue (6/cs)

3 grips on a roll with finishing tape

GRIP TAPE Overgrip

For a rough, tacky, sticky feel

It is made of very thin, tackified gauze. Just wrap over grip, it sticks to itself.

Can be used to build up a racquet grip size - one layer will build up a handle by 1/16".

Each roll is 360" long

Colors: Green Black White Blue

Grip Finish Tape

Use to secure grips to racquet handle. Rolls available in Black and Red.

Roll is 1/2" x 60' (20 meters)

FT-BK Black (1/cs)
FT-R Red (1/cs)

MEGA WRAP®

Replaces Original Base Grip
1.5 mm thick

MW-B - Blue, 6/cs

Just remove your old grip and wrap over the bare racquet handle. Secure at the top with finishing tape.

- Exclusive tacky PU coating clings to hands
- Prevents twisting and slipping
- Very durable
- Reduces sting and vibration
- Traction craters create secure grip
- Perforations absorb sweat

MW-W - White, 6/cs

MW-US, (US Flag), 6/cs

MW-BK - Black, 6/cs

MW-R - Red, 6/cs

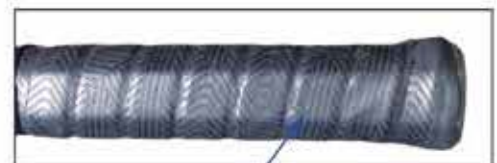

PRO GEL™

- Absorbs Shock
- Cushions
- 2 mm thick

- Made with Shock Absorbing Gel
- Tread pattern for excellent traction and racquet control
- Provides maximum cushioning and absorbs shock which travels to elbow

It will slightly enlarge the grip which is beneficial to preventing tennis elbow.

GCS-BK (6/cs)

Tread pattern

Absorbing Gel

TOURNA

REPLACES ORIGINAL GRIP

Replacement grips are made with beveled edges for perfect seamless fit

Grips

TOUR GRIP®

1.75 mm thick

Top Seller!

- Perforated for superior absorption
- Edges are beveled for a perfect, seamless fit when wrapped over the handle

- Edges are beveled for perfect fit and easy installation

TLG-T Tan (6/cs)

TOURNA GRIP SOLUTIONS

- Rosin in shaker bottle
- No mess
- Easy to use

ROSIN GRIP bottle

- Twist the top and shake on hands
- Very effective delivery of rosin to your hands and equipment

ROZ-3B Blister card (6/cs)
ROZ-3 Bulk (6/cs)

ROZ-3

ROZ-1

ROSIN BAG

- Slap porous bag against hands or grip to dispense rosin.
- Excellent in very humid conditions.
- Packaged in reusable, zip lock pouch.
- Tried and true for over 130 years

ROZ-1 (Bag, 6/cs)

Rosin is made from oleoresin extracted from sustainable managed Georgia pine trees. It is ground to a fine sandy powder which delivers great gripping power.

*** Foil sealed bottle ensure freshness

GRIP R_x

- Instant Grip enhancer
- A quick-dry effective solution to keep sweaty hands dry
- Just dab on and rub hands or gloves together. Allow to dry to a light powder.

For: Basketball, Baseball, Football, Bowling, Pickleball, Power Lifter, Gymnastics, Tennis, Yoga and more

Patented formula
GRX-2 (6/cs)
GRX-4 (4 bulk bottles per box)

TAC RAG

- Tacky bees wax saturated in the Tac Rag
- Delivers gripping power with no mess and without a lingering sticky feel
- Dissipates quickly and does not stain

- Tac Rag measures 9" x 18".
- When the Rag turns gray throw it away
- Lasts about 4 to 6 weeks of average use
- Packaged in zip lock bag for storage

TRAG-WXL White, (6/cs)
TRAG-WXL2 Two per pack (6/cs)

Pro Stick®

- Rub it over grip
- Non-toxic and very tacky
- Lasts indefinitely
- Stores in a handy vial which fits in pocket.

Pro Stick launched our company with a huge order for 120,000 sticks back in 1972.

PSC-3 (6/cs)

Carry vial

Just rub it on

Dri Hold™

- Pull over knitted overgrip
- Made with stretch cotton fibers
- Cotton absorbs hand perspiration

DRI HOLD is the most economical overgrip available since you can wash and reuse it.

Colors: white, blue.

DH-1 White, 2 in package (6/cs)
DH-B Blue, 2 in package (6/cs)

Slides on

Tennis Gloves

- Quality feel
- Made of soft, extra thin calf skin leather with plush terry on backside
- Gloves deliver excellent control during cold weather

The half-finger glove keeps the hand warm yet allowing fingers to directly feel the grip.

Sizes: S, M, L, XL

Men's and Ladies sizes,
Right or Left hand

Consult price sheet for stock numbers.

TGF Full finger (1/cs)
TGH Half finger (1/cs)

Hot Glove Mitt®

- Slip your hand into the Mitt and insert the racquet handle through opening at top of Mitt
- Does not hinder hand movement
- Makes playing in cold tolerable

Made of 100% breathable fleece.

One size fits all
RHG-1 Black (1/cs)

Great
in cold
weather

Durable Lightweight

Snug fit

Racquet Guard Tape

Apply over edge

- Protects racquet frame from nicks and scrapes
- Minimal weight added
- Tough, durable

Roll is 20 ft long x 1" wide. 1.25" for wider frames

RGT-BK, Black - 1" wide x 20 ft (6/cs)
RGT-W- BK, Black - 1.25" wide x 20 ft (6/cs)

NEW! Tennis Edge Guard

- Protects the edge from court scrapes
- Sturdy woven material with a "V" cut on tape edges. The "V" cut minimizes tape wrinkling over curved edges.
- The bottom side is coated with sticky polyurethane that firmly adheres to racquet frame and stays on.
- Package covers 2 racquets

T-EG, 1" (26mm) wide
T-EG-W, 1 1/2" wide
Pack: 6/box, 2/package

Peel backing and stick to racquet frame

Bulk 36 yard reels

Lead Tape

- Juice up your tennis racquet
 - Adds weight to racquet which delivers more power
 - Adhesive backed for easy attachment
- Just cut it and press on racquet frame

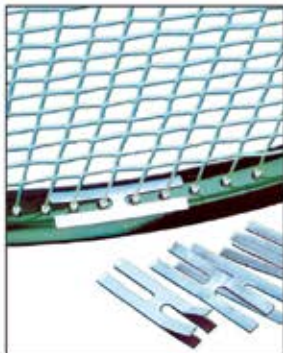

LD-36 (1/4" x 72") on card (6/cs)
(Strip cut to 4" in length adds 1 gram)

REELS:

LD-107 - 1/4" x 36 yards (1/cs)
LD-108 - 1/2" x 36 yards (1/cs)

Lead Power Strips

Power lead strips are pre-cut so you simply attach to racquet frame as shown in photo. Each strip adds 3.62 grams of weight.

LD-6 6 strips per pack (6/cs)

Grip Bands

Made of stretch silicone material to secure overgrips or replacement grips to the racquet.

GB-2 (6/cs)

Power Cap

- Build up butt cap for extra power
- This is vital to get extra speed on the ball without racquet end digging into hand

RPC-1 (6/cs)

Tennis Key Chain

Miniature tennis ball key chain. No logo on the ball. Feels like a real tennis ball.

SK-T (12/cs)
SK-T-J, Jar holds 36 (1/cs)

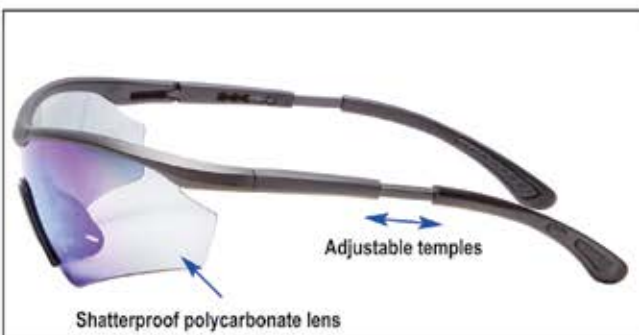

TOURNA Pro Shades™

Tennis Specs

- Outstanding performance
- Sharp affordable price
- Looks great
- Made of shatterproof polycarbonate
- Crafted with no vision distortion
- Lens has proprietary blue-white-smoke coating which delivers sharp contrasts for all sport activities.

TOURNA

AIR CELL®

- Air pressure pillow delivers 50% more pinpoint pneumatic pressure to the painful elbow joint tendon.
- The strap is made of elastic stretchable material for constant pressure
- The breathable material creates comfortable wear
One size fits all.

CEL-1 White (6/cs)

Elbow Guard Rx®

- Relieves elbow pain (commonly called Tennis Elbow and Golfer's Elbow)
- Just place Guard Rx around arm below the elbow. The strap stretches and moves with the arm while keeping constant pressure on the sore tendons
- Does not slide down your arm as you sweat
- Comfortable to wear for long periods of time

GDRX-1 (6/cs)

Tennis Elbow Guardit®

Relieves elbow pain with compression. Part of the strap is elastic so it offers infinite tension adjustments. It moves with your arm instead of compressing it in one fixed position. Made with foam cushion for comfort. Comes with anti skin pinch flap. Full healing exercises are included in the package.

EG-1 (6/cs)

SQUEEZIT™

3 Resistance Level Balls

Red - Soft
Blue - Medium
Purple - Hard

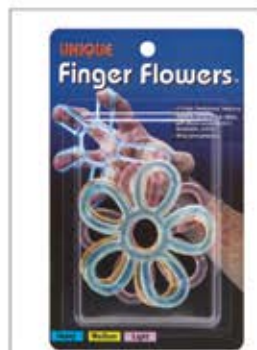

Just keep squeezing with increasing pressure to achieve rehabilitation for wrist, hand, tennis elbow, and forearm.

"Therapy in every squeeze"

SQ-R - Red (6/cs)
SQ-B - Blue (6/cs)
SQ-PR - Purple (6/cs)
SQ-3 - Set of three (6/cs)

Finger Flowers™

3 Finger Resistance Tensions

- Helps to rehab tennis elbow, golfer's elbow, carpal tunnel, tendonitis, arthritis
- Wrist strengthening
- Will help prevent injuries.

FING-3 (cs)

Tourna 850 ES Computerized

***** See the machine video demo at:
<https://www.uniquesports.us/tourna-stringing-machines/>

This is a superb electronic stringing machine for Tennis, Squash, Racquetball, and Badminton. Listed here are just some additional features in addition to all the features on our other machines:

- Down Pressed, gravity assisted patented clamp bases
- Diablo tensioner for the most delicate strings
- Precision tension control from 10-90 lbs with 0.1 accuracy
- Eight programmable permanent tension memory settings
- Auto start string gripper
- USB port to charge your cell phone while stringing
- Extra large tool tray with easy access to cell phone
- Motorized, adjustable height stand
- Electronic turn table brake
- Easy and simple display and operation
- Rear-tilted mounting post allows for more open workspace
- Sleek look

Stock # 850-ES

Tourna 700 ES Computerized

***** See the machine video demo at:
<https://www.uniquesports.us/tourna-stringing-machines/>

Description	• Space saving, sleek design, 6-Point Computerized machine with stand for Tennis, Racquetball, Squash, Badminton (Badminton adapter adds 2 center posts)
Tensioning Mechanism	• Extremely sensitive electronic tensioner with advanced microprocessor technology
Constant Pull Lockout	• Microprocessor controlled True Constant Pull Tensioning
Tension Range	• Precision tension control from 10-90 lbs. (4.5 - 40.8 kgs) with 0.1 accuracy
Tension Memory	• 8 programmable permanent tension memory settings
Tension Unit	• Modular, removable tension unit for easy servicing
Multi Speed Pull	• 6 selectable pull speeds
Pre-Stretch	• 4 levels of pre-stretch (5%; 10%; 15%; 20%)
Knot Tensioning	• Knot Function increases tension on Tie-Off Pulls
Pounds & Kilos	• Easy Lbs / Kgs conversion button
Calibration	• Calibration adjustable with electronic or manual calibrator
Timer Function	• Convenient Timer Function
String Gripper	• Diablo tensioner with one hand tensioning start button behind string gripper
Mounting System	• 6-Point self leveling Quick Mount System with load spreaders at tip and throat
Side Arms	• Single knob adjustable side arms for convenient and secure mounting
Billiard Support	• Single knob adjustable billiard support
Side Supports	• Fixed side supports designed to fit tennis, squash or badminton racquet
Self Centering Adjustment	• Self centering lever on mounting stand for quick adjustment
Curved Posts	• Curved posts allow for more free space for hands to maneuver
Turntable	• Ergonomic, oval shaped turntable, 360 degree turntable rotation with break
Clamps	• Two slim profile swivel clamps; fully CNC crafted with aluminum alloy; 5-tooth quick dual action; finger adjustable with numbered dial for tennis/badminton
Clamp Base & Locking Arm	• Patented Down-Pressed clamp base with gravity assisted release
Clamp Locking	• Super quick Cam-Lock mechanism. Clamps lock securely and easily to table
Clamp Adjusting Stand	• Adjustable with 3mm Allen wrench
Base & Tool Tray	• Sturdy, height adjustable metal stand (30" - 34.25"), with leveling pads • Large hideaway tool tray for storing reels and extra tools
Tools included	• 1 straight awl, 1 needle nose pliers
Warranty	• 2 year limited parts with 1 year limited electronics
Table Top	• Comes with foot pads so it can be used as table top unit
Stock number	# 700-ES

Description	• Electronic stringing machine
Uses	• For Tennis or Badminton
Tension Mechanism	• Push button tensioner
Tension Range	• 15 - 81 lbs
Mounting System	• 6-Point Mounting System designed to minimize stress on frame
Side Supports	• Adjustable V-shaped supports
Turntable	• Full 360° Octagonal turntable rotation with brake. Space saving, ergonomic shape base with easy to use smooth track
Clamps	• Two ultra slim profile swivel clamps; fully CNC crafted with aluminum alloy; 5-tooth, Quick dual action; finger adjustable with numbered dial for tennis and badminton.
Locking Mechanism	• Cone Lock Swivel base clamping system
Adjustability	• Finger tip adjustable 5 point clamps
Ruler	• Built in ruler
Gripper	• Easy to use rotary string gripper
Tools	• Tools included - Hex Wrench set, 1 straight pliers, 1 straight awl. Convenient storage.
Warranty	• 2 year limited parts

Stock # 550-ES
Pack: 1/box
Cube: 5.21
Case Wt: 62 lb

Stringing Machines

Electronic add-on tension head machine

Converts most crank machines and drop weight machines to electronic tension head stringing

- Comes with mounting brackets and glide-to-activate gripper module
- Very precise, chain driven so it is quiet and fast
- Large display

Mounting bracket

NEW!

2 year mechanical warranty
1 year warranty electrical

The installed straight rectangular Bar is used for mounting Wise Machine. Remove the Bar to mount Ennox Machine

550-ES Base & Mount

For use with Ennox or Wise tension heads

- Linear pull tensioner with a glide to activate gripper
- 6 Point mount system
- Octagonal Turntable with 2 oversize Dual Action Clamp Bases and 2 CNC Swivel Clamps
- 360 degree turntable + brake
- Heavy duty stable base
- Adjustable V supports
- Tools included: Awl, Needle Nose Pliers

Stock # 550-ES

"The best value machine for the money" ...TOPSPIN review
watch the demo review at <https://youtu.be/laQZp2ZDFQM>

Description	• 6-Point manual stringing machine with stand (no table top option)
Uses	• For Tennis, Racquetball, Squash, Badminton
Tension Mechanism	• Manual crank
Gripper	• Adjustable width linear ball bearing string gripper
Tension Range	9 - 102 lbs (4-46 kgs)
Tension Setting	Spring loaded tension winder
Pounds & Kilos	• Pounds & kilograms scales
Calibration	• Calibration adjustable with electronic or manual calibrator
Mounting System	• 6-Point self leveling Mounting System
Side Arms	• Articulated side arms (single knob adjustable) for ultra convenient and secure mounting
Side Supports	• Adjustable large metal V-shaped side supports
Self Centering adjust	• Easy, large dial under turntable adjusts mounting stand
Turntable	• Full 360° turntable rotation with brake Octagonal, space saving, ergonomic shape
Clamps	• Two ultra-slim profile swivel clamps; fully cnc crafted with aluminum alloy; 5-tooth, quick dual action; finger adjustable with numbered dial for tennis and badminton.
Feature	• Oversize base and locking arm - easy to maneuver
Locking Mechanism	• Super quick cam-like mechanism Clamps lock securely & easily to table
Adjustability	• Finger tip adjustable clamps - no tools needed
Stand	• All metal stand, height adjustable (30.25" - 32.25") Comes with metal string reel holder & tool tray Stand has levelling pads
Crank	• Suitable crank for left or right hand
Tools	• Included: 1 straight awl, 1 straight pliers, hex wrench set
Warranty	• 2 year limited parts
Total weight	• 64 lbs (29 kgs)
Packing	• Cubic feet 6.58 (35" x 14" x 21")
Stock Number:	# 350-CS

TENNIS STRINGS

- **TOURNA** Strings are crafted with the latest technology and are second to NONE in performance.
- You have our **guarantee** with every TOURNA string of high performance.
- **TOURNA** High-Performing strings are reasonably priced strings.
- All our strings are rigorously playtested personally by us, teaching pros, and club level players. It is our mission to craft high quality, arm friendly, playable strings at affordable prices.

ALL TOURNA Poly strings are crafted in Germany using an advanced **polyether** string formulation. The polyether delivers a softer string that absorbs shock and increases comfort, while retaining incredible durability, power, and resistance to movement.

Tourna Nylon strings are not as stiff and are friendlier to the player's arms. They are made in Taiwan to our strict specifications. The nylon strings range from premium multifilament like Quasi Gut and Quasi Gut Armour to durable Synthetic Gut and economical Nylon.

String	Awards	Date Tested
Big Hitter Silver7 Tour 	#1 - Tension Maintenance #3 - Spin among all strings tested #4 - Overall #5 - Control	9-2019
Big Hitter Black 7 	#1 - Spin among all strings tested	5-2012
Big Hitter Blue Rough 	#1 - Control (Poly) #1 - Spin (Beat by Black 7) #2 - Best Overall Poly String #3 - Resistance to Movement	2-2011
Big Hitter Blue	#10 - Best Overall Top String	1-2008
Big Hitter Silver 	#1 - Resistance to Movement #2 - Durability	5-2004
Quasi Gut	#5 - Overall Feel #6 - Overall Playability #7 - Comfort	4-2010
Quasi Gut Armor	#2 - Comfort #3 - Touch/Feel #9 - Playability #10 - Power	11-2013

Awards are based on tests conducted by USRSA (United States Racquet Stringers Association.)
and TWU (Tennis Warehouse University).

The test results are compared to all the strings ever submitted for testing.

Silver 7 Tour

Made in Germany

The Best Tension Maintenance Poly Ever

- Tourn **SILVER 7 TOUR** delivers **Massive Spin** and **Control** with power
- The stiffer, lower powered string allows skilled players to hit-out and still keep the ball between the lines without risking injury to their arm, shoulder, or wrist.

Made in Germany using a durable poly-polyether resin. Silver 7 Tour is a **seven sided co-poly** that bites the ball hard and snaps back in a flash to impart **massive spin**. The 7 edges bite into the ball for incredible spin and pin point accuracy.

16 gauge (1.30 mm): # STTOUR-16: 40 ft (12 m)
Reel: # STTOUR-200-16: 660 ft
17 gauge (1.25 mm): # STTOUR-17: 40 ft (12 m)
Reel: # STTOUR-200-17: 660 ft

Big Hitter BLACK 7

Top Seller!

#1 IN SPIN

- **SEVEN** sharp edges grab the ball. Soft co-poly, hyper-elastic materials hold the tennis ball until ready for launch.
- USRSA (United States Racquet Stringers Assoc.) conducted a blind test for 5 weeks. The test rated Tourn Black 7 to be the best string for spin of 163 strings tested.

BLACK 7 is designed for stronger players looking for mid-range power response with pin-point accuracy and massive spin advantage. It allows a player to hit out on the ball and still keep the ball within the lines.

We recommend stringing 10% lower than current racquet stringing tension.

16 gauge (1.30 mm): # BHBKT-16: 40 ft (12 m)
Reel: # BHBKT-200-16: 660 ft
17 gauge (1.25 mm): # BHBKT-17: 40 ft (12 m)
Reel: # BHBKT-200-17: 660 ft
18 gauge (1.20 mm): # BHBKT-18: 40 ft (12 m)
Reel: # BHBKT-200-18: 660 ft

Big Hitter DEUCE®

The best of two strings:

DEUCE was developed for players who want both **power and touch**. Deuce combines the power and pop of Big Hitter **BLUE** with the controlled comfort of Big Hitter **RED**.

DEUCE is a blend of 2 poly-polyether resins:

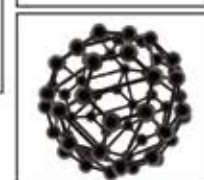

- **BLUE** resin is stiffer and very lively which delivers snap-back power
- **RED** resin brings extreme comfort and controlled power

Thermal heat treatments bond the two resins at molecular level

16 gauge (1.30 mm): # BH-D-16: 40 ft (12 m)
Reel: # BH-D-200-16: 660 ft
17 gauge (1.25 mm): # BH-D-17: 40 ft (12 m)
Reel: # BH-D-200-17: 660 ft

GRIT®

NANO particle

- A new Nano string technology A completely new development for polyester strings.
- With 4th generation Co-Poly materials we blended Carbon Fiber Nano Particles. The materials then undergo thermal processing to bond the Nano Particles to the poly-polyether prior to extrusion.
- Nano Particles make Tourn Grit extremely elastic, more than any other poly string on the market. This elasticity imparts incredible "Liveliness", "Feel", and "Pop"!
- String surface is slightly rough due to nanos. This roughness gives superior spin and extreme directional control.

A must string to try

16 gauge (1.30): # GRIT-16-S, Silver ... 40 ft
17 gauge (1.25): # GRIT-17-S, Silver ... 40 ft
18 gauge (1.20): # GRIT-18-S, Silver ... 40 ft
REEL: # GRIT-200-16-S, Silver
REEL: # GRIT-200-17-S, Silver
REEL: # GRIT-200-18-S, Silver

Big Hitter Blue Rough

Made in Germany

Big Hitter Blue Rough is extruded with 5 sides and twisted, creating serious bite and spin potential. Out of 149 poly strings ever tested by USRSA these are the results:

- First place in Spin
- First place in Control
- Second highest rated string ever
- Third place in Resistance to Movement

"There is not much to say about the play test scores other than the fact that "Blue Rough" poly blew the doors off the ratings."

USRSA quote

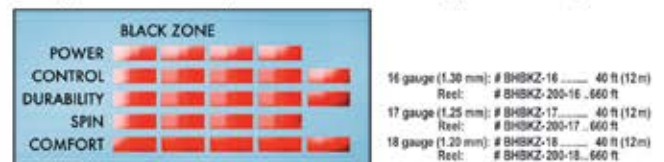

Big Hitter Black Zone

Made in Germany

- Black ZONE is a ultra smooth co-poly.
- It's crafted with a series of special thermal heat treatments that strengthen molecular bonding and keep the surface smooth during hard hitting play.
- It is designed for Comfortable, Controlled Power during faster swing speeds and
- It has excellent DURABILITY.

The ultra smooth surface makes it perfect for hybridizing with synthetic strings. It will not bite into softer strings which can cause premature breakage. The smooth surface allows the strings to bend on impact and then snap back for excellent feel, power and spin.

Big Hitter Blue

Made in Germany

- Big Hitter Blue is an advanced German monofilament made with polyether.
- It delivers spin, power, and comfort for higher levels of play.
- Extra durability permits use of a thinner gauge for more bite and accuracy without sacrificing string life.

Test Rated as Top 3 in Spin and Top 4 in Durability and Resistance to Movement. It scored top 10 overall by USRSA.

Big Hitter Silver

Made in Germany

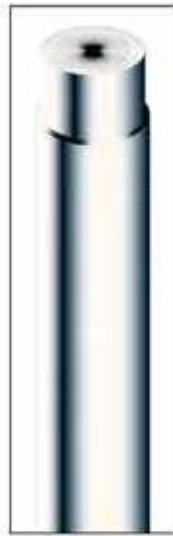

- Made for powerful hitters and string breakers.
- Slightly stiffer and more control oriented than Big Hitter Blue.
- Extra durability allows players to use thinner gauge for added ball bite and accuracy. Silver metallic color.

String play tests by USRSA confirm that compared to all the strings tested BIG HITTER SILVER is:

- # 1 in Resistance to Movement.
- # 2 in Durability (2nd only to Kevlar)

TOURNA Premium Poly

Tired of hearing that the string broke so quickly?

- Premium Poly is a very very durable String that solves quick breakage
- Crafted in Germany with special blend of polyester and proprietary additives
- Made with a superb coating which enhances playability
- Designed especially for heavy top spin hitters
- EXCELLENT price
- Great for clay court play

QUASI-GUT®

- Quasi-Gut is constructed with thousands of microfibers
- Each fiber strand is impregnated and contained in a premium thermo-elastic polyurethane resin
- These tightly wound microfibers deliver a sensational gut-like feel and playability at a dramatically lower price
- The premium PU resin greatly increases durability and weather shielding as compared to Natural Gut

USRSA play tests rank it in top 10 of all strings tested.

One play tester said: "This is one of the best strings I have ever tested" male 5.0 all court player.

16 gauge (1.30 mm): # QGUT-16 40 ft. (12 m)
Reel: # QGUT-200-16 660 ft.
17 gauge (1.25 mm): # QGUT-17 40 ft. (12 m)
Reel: # QGUT-200-17 660 ft.

QUASI-GUT®Armor

- A Nylon string with a touch of Poly
- Delivers maximum Comfort & Durability & Touch / Feel
- Made with thousands of multi-filament fibers that are wrapped around high tenacity center core and Dupont Nylon center wraps
- Polyester wraps are used to reinforce the core for durability

USRSA play tested and reported: "Quasi Gut Armor received the second highest rating for Comfort of 175 strings we play tested to date - the only string that bettered it is Natural Gut. To place second only to natural gut for Comfort, is astonishing".

Quasi Gut Armor placed 3rd in Touch & Feel, 9th in Playability, 10th in power. Great for hybridizing with co-poly strings.

16 gauge (1.30 mm): # QGUT-A-16 40 ft. (12 m)
Reel: # QGUT-A-200-16 660 ft.
17 gauge (1.25 mm): # QGUT-A-17 40 ft. (12 m)
Reel: # QGUT-A-200-17 660 ft.

Synthetic GUT

- Synthetic gut is the most widely used string due to its economical price and performance
- It offers excellent liveliness and gut-like performance
- It's multi-filament fibers are wrapped between a high tenacity center core and DuPont Nylon center wraps
- Internal resin is elastic which mimics the natural gut-like feel

This is a fine, durable, and super value string.

Available in Gold color only

16 gauge (1.30 mm): # SGG-16 40 ft. (12m) ; SGG-200-16 660 ft. Reel
17 gauge (1.25 mm): # SGG-17 40 ft. (12m) ; SGG-200-17 660 ft. Reel

Synthetic GUT®Armor

- Crafted for maximum Playability and Durability
- Multi-filament Fibers are wrapped around a high tenacity center core and Dupont Nylon center wraps
- Durable polyester wraps reinforce the core for a longer lasting string
- Internal Resin is very elastic to give you that GUT LIKE FEEL
- Great for hybridizing with co-poly strings

SYNTHETIC GUT ARMOR offers excellent liveliness, responsive performance, and Durability. It maximizes touch and control.

Available in Black and White

16 gauge (1.30 mm): # SGA-BK-16, Black 40 ft (12m)
Reel: # SGA-BK-200-16 660 ft
17 gauge (1.25 mm): # SGA-BK-17, Black 40 ft (12m)
Reel: # SGA-BK-200-17 660 ft
16 gauge (1.30 mm): # SGA-W-16, White 40 ft (12m)
Reel: # SGA-W-200-16 660 ft
17 gauge (1.25 mm): # SGA-W-17, White 40 ft (12m)
Reel: # SGA-W-200-17 660 ft

Tourna IRRADIATED

- **IRRADIATED** is crafted with a multi-filament fiber center and surrounded with fine monofilaments which deliver exceptional comfort.
- Irradiated technology injects energy into the molecular structure of the string to enhance elasticity and lower damping. This makes the tennis ball rebound faster from the racquet with less loss of energy.

Natural Gut has the least amount of internal damping (that is a great feature). With Irradiated string you get as close to natural gut as possible, but at a much lower price.

16 gauge (1.30 mm) # IR-16 40 ft (12 m)
Reel: # IR-100-16 330 ft (100 m)
17 gauge (1.25 mm) # IR-17 40 ft (12 m)
Reel: # IR-100-17 330 ft (100 m)

Tourna SPIN PLUS

- This string was designed for players who want to maximize spin on their shots.
- Exceptional spin performance is delivered by the string's unique construction.
- It has a strong mono center core, with multi-filament fibers and layers for its outer wrap.
- The spiral outer wraps give it the bite for that extra spin.

The faster the swing, the more spin is generated on the ball.

16 gauge (1.30 mm)
40 ft (12 m)
SP-16, Mint Green
SP-P-16, Pink
SP-BK, Black
SP-N, Navy

Tourna NYLON

- Tourna Nylon is made with single wrap, high tenacity nylon fibers
- It is coated with the latest coating technology
- This is an all-around performance string for players on a budget

The Original Classic Nylon tennis string is still a great combination of power, control and durability and economical.

Colors: White, Gold, Pink, Fluorescent Yellow, Mint Green

TOURNA

STRING ACCESSORIES

STRINGMETER®

String Tension Measuring Device

String tension is one of the most important factors in the performance of your racquet. Even the best racquet will play poorly if not strung well. It is difficult to estimate tension and monitor tension loss over time.

STRINGMETER eliminates the guessing, plucking and tapping strings to measure tension. In minutes it gives easy and accurate readings of string tension and tension loss. It lets you know if your racquet was strung to your preferred tension, and lets you know when it's time to restring (about 5-10 lb of tension loss).

- Measures string tension
- Measures tension in lbs and kilograms
- Measures main string tension during the stringing process
- Measures string size

KNOW YOUR STRING TENSION FOR BETTER PLAY

METER-1 (1/cs)

Tourna CROSS

- Reduces string movement by locking strings in place
- Applicator tool makes it easy so that you can insert the cross piece with one hand
- Strings will not rub against each other and it will extend the life of strings
- Tourna Cross imparts more spin when ball is struck ... crosses bite the ball

TC-1 (6/cs) Applicator with cross pieces
TC-R (6/cs) Refill strips, 10 per pack

STENCIL INK Marker

- For stenciling logos on racquet strings
- Dries immediately
- Bottle has mohair tip applicator so it makes it easy to apply ink.

	# RSI-BK Black
	# RSI-B Blue
	# RSI-R Red
	# RSI-W White
	# RSI-P Pink
	# RSI-NY Neon Yellow

Mohair Tip Marker

Improved dispensing applicator minimizes leakage

Kids are tired of boring racquet company logos on their strings. Offer them stylish, fun stencils so they can express themselves. When you string their racquet, show them a range of fun stencil choices. Keep them excited and coming back for fun stencils.

DIRECTIONS:

- (1) Place newspaper on flat surface and place racquet on top
- (2) Position stencil on strings using "V" cuts in stencil as guides
- (3) Follow directions on Stencil Ink container
- (4) Dab ink into open slots on the stencil covering the exposed strings
- (5) Next, lift the stencil and flip the racquet to do the other side
- (6) Align stencil on strings with inked side against the strings
- (7) Dab on ink on this other side until all exposed strings are covered
- (8) Let racquet dry overnight

TOURNA String Dampeners

STRING ACCESSORIES

VibreX

Lock-it

Definitely stays on!
Does not fly off on hard hits.

VIB-LOK-R, Red
VIB-LOK-BK, Black
VIB-LOK-B, Blue
Pack: 2; 6/box

O DAMP

One of the most popular dampeners. Works on all racquets. The center hole minimizes air resistance when racquet is swung with speed. Pete Sampras made this shape popular.

VIB-O - Black/Red (12/cs)
VIB-O-BK - Black (6/cs)
VIB-O-W - White (6/cs)
VIB-O-R - Red (6/cs)

VibreX

Scorpion

- Surrounds all the vertical strings for max dampening
- Quickly clips on

Made of stretch ribbed silicone

Dampen strings with a smile

Stock # VIB-SMILE
Pack: 3/ blister card - 6/box

TOURNA DAMP

Just Tie It On.
Simple yet effective.
Made of UV synthetic latex which is UV protected.

TDP-5 (6/cs)
5 DAMPS per package

VibreX

- Made of silicone
- 2 per package
- Available in colors: yellow, red or blue
- Very effective in silencing string vibration.

VIB-1 (12/cs)

VibreX NEON COLORS

- Made of silicone
- 3 per package
- Available in colors: neon green, pink, yellow
- Very effective in silencing vibration.

VIB-NX (6/cs)

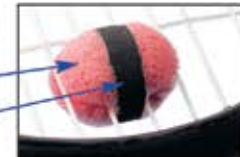

VibreX

Sponge

The Original invention that started it all. Silicone rubber is in the center between two foam pieces. Very effective.

VIB-2 (6/cs)

VibreX

Flower

Let the girls play with a daisy dampener. Stops string vibration while it looks nice on a racquet.

VIB-FL (6/cs)

VibreX

Spider

A scary dampener for boys. It looks like a creepy, crawly spider on a racquet.

VIB-SP (6/cs)

VibreX

Whistler

- Swinging produces a whistling sound
- The faster the swing speed, the louder it sounds
- Teaches swing speed. Weak sound - weak stroke
- For louder sound insert 2

VIB-W (6/cs)

TOURNA Tennis Balls

Youth Tennis Permanent Pressure Balls

All USTA and ITF sanctioned tennis tournaments for kids 10 and under are required to be played using a new combination of lighter and lower bouncing tennis balls and smaller tennis courts. Scaling tennis to child's size allows them to rally and learn to play the game quicker.

Go to: www.USTA.com/OnCourtTraining for complete details.

Tourna brand balls meet ITF and USTA 10U standards. Reduced bounce and slower than standard ball for safer learning and children skill building.

Stage 1 Green DOT Balls

- Ages 11+ plus years
- 25% reduced speed
- Final transition
- Tennis ball size
- Full court

Stage 2 Orange DOT Balls

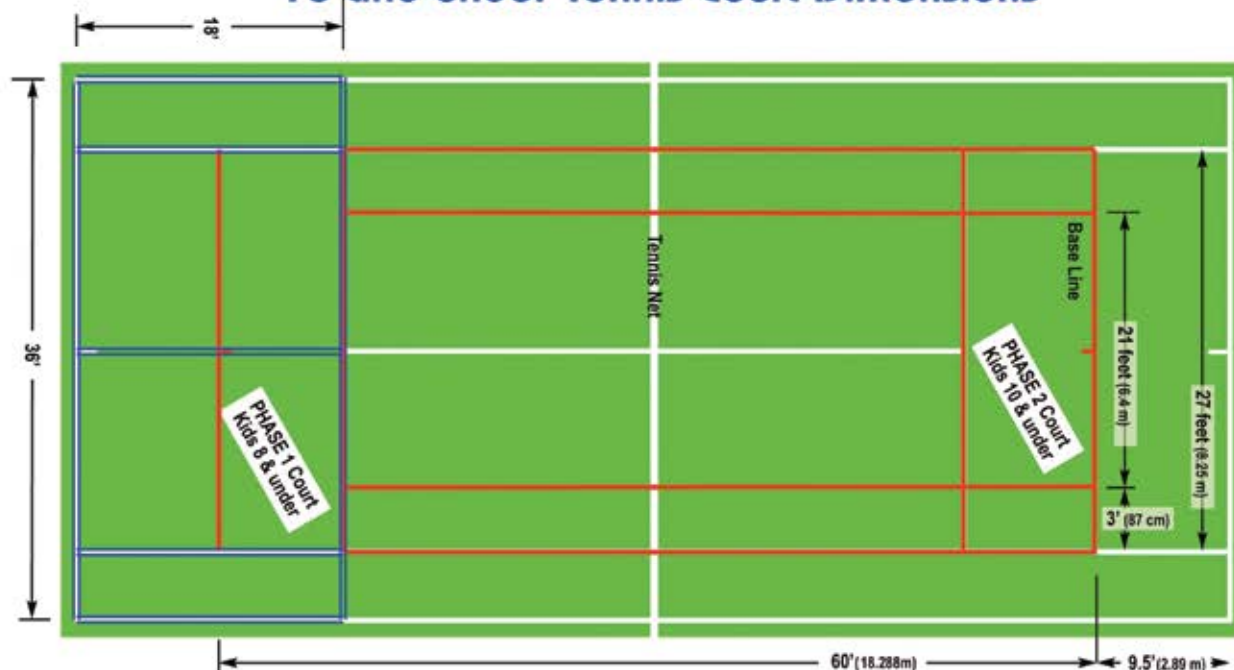

- Ages 9 to 10 years

Fill-n-Drill®

Practice basic strokes while away from the court

- Builds quickness, hand-eye coordination and stamina.
- Fill it with water to anchor the base. Very light when empty.
- Stores and carries easily.

Elastic cord winds around base and the ball locks neatly into base pocket. Great practice tool for all levels of play. Full tennis practice instructions come with package. Cord stretches up to 30 ft.

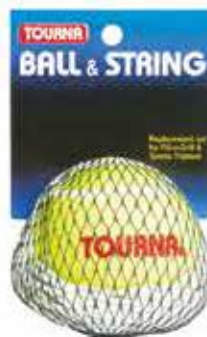

FD-1 (3/cs)

Ball & String

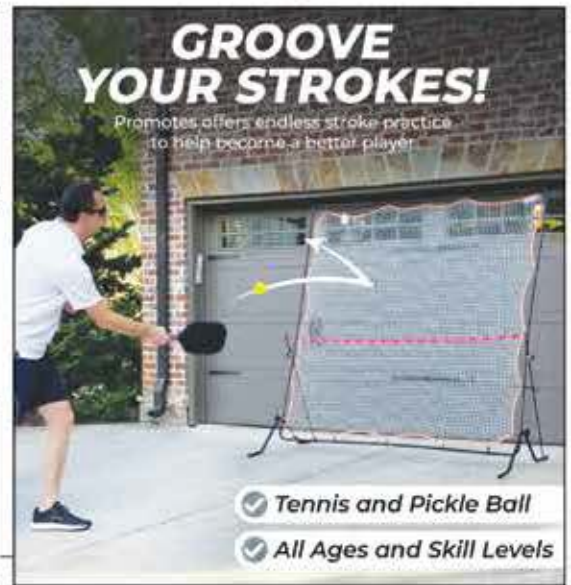

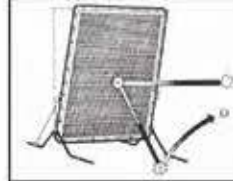

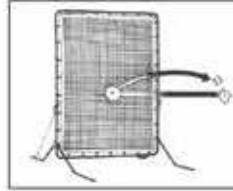

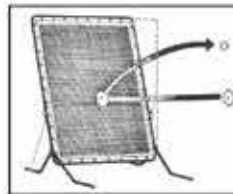

Replacement parts for Tennis Trainers. Ball and string cord will wear out with practice.

- # TT-B - Ball & String replacement, 6/cs
- # TT-S - String replacement, 1/cs

TOURNA

Tennis & Pickleball Rally Pro

- 7 ft wide x 7 ft high Tennis and Pickleball rebounder
- It delivers hours of practice. Easy to set up.
- Quick adjustment tilts the net to change the rebound

Sets on driveway, inside garage, basement or backyard

REB-7, 1/cs

Tennis & Pickleball REBOUNDER

- 9 ft wide x 7 ft high silent backboard which is great practice for beginners and kids.
- Set it up on driveway, inside garage, basement or tennis court.
- Net stretches taught inside steel tubular frame with springs.
- Heavy duty netting delivers very realistic return response.

REB-9 (1/cs)

When the net loses its rebound tension it will be time to replace with new net and springs

REB-9-N (1/cs)

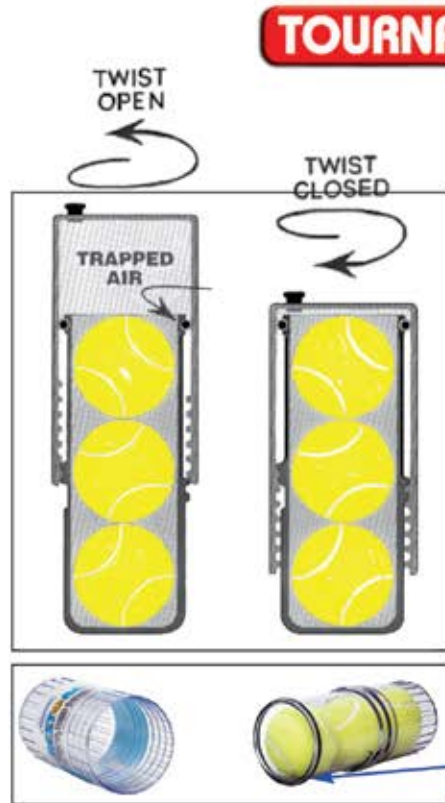

Reflex Ball

- Unique teaching aid to sharpen reaction skills
- Has an unpredictable bounce when thrown against the ground
- A 10 minute daily practice will improve reaction skills
- Fun to practice with

RFX-1 (6/cs)

Training accessories

TOURANA

RESTORE

Extends life of tennis balls!

- Stores balls after each tennis play
- When you close Restore, it compress air to 14 PSI which is equal to the pressure of an unopened can of tennis balls.
- Restore keeps the air in the balls from leaking out. Once a can of balls is opened, the balls become flat in a few weeks even if you never played with them.
- RESTORE stops further pressure loss so you can be playing weeks later.
- Pressure release valve at the top makes the opening of Restore easier

You can test that Restore is holding air pressure by submerging Restore into a container filled with water. No bubbles - it's holding air pressure.

IT REALLY WORKS!

RST-3 (6/cs)

O-ring traps and compresses air to 14 psi when closed and creates a pressurized unit.

Ball Pocket

POK-1, Clear (6/cs)

POK-W, White (6/cs)

Clips to waistband and grips ball firmly. In clear & white.

POK-1 Clear

COURT PRODUCTS

Court Side Bench

Heavy Duty (5 feet wide)

- Made from high density, maintenance free polyethylene and PVC
- This is a sturdy, strong, heavy duty court bench designed to last in all weather conditions
- 3 leg design prevents bowing in the middle
- Treated with UV and mildew inhibitors

Very comfortable to sit on and supports even very heavy weights. Tourna Bench can be bolted to any hard surface. Easy assembly. Available in white and green.

TCB - 5W, White - 5 feet
 # TCB - 5G, Green - 5 feet
 Cube: 6.8 (61" x 27.5" x 7") in box
 Out of box measures 59" x 33" x 26"

Mid Court Bench

5 feet wide

- Tourna Mid-Court bench is ideal for use between multiple, side by side courts.
- Made from high density polyethylene and PVC
- This is a durable, maintenance free, mid-court bench designed to last indoors or outdoors.
- Equipped with middle legs for added support

Very comfortable to sit on. Edges curve downward so they don't press into players legs. Tourna Mid Court Bench can be bolted to any hard surface.

Available in White and Green.

TMCB - 5W White - 5 feet
 # TMCB - 5G Green - 5 feet
 cube: 3.7 (60" x 20.5" x 5.2")
 weight: 17 lb

Score Tube®

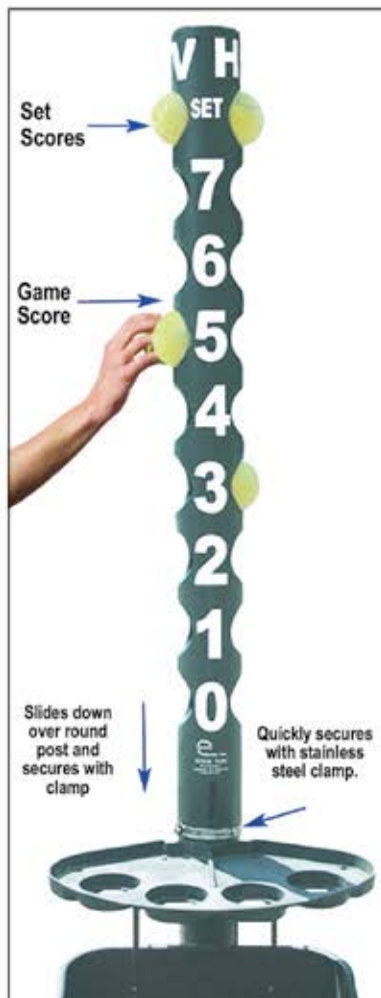

TOURNA

Score Keeper

- Score Tube slides over a round net post. It can also be attached to net and can be secured to fence with supplied hook.
- Installs quickly and easily
- Stainless steel clamp secures tube to net post
- Used tennis balls fit in holes to mark the score

The entire unit is sealed so rain and weather will cause no damage. There are no moving parts to rust or to vandalize. Add a fresh new look to your courts at **low cost** compared to other tennis score keepers.

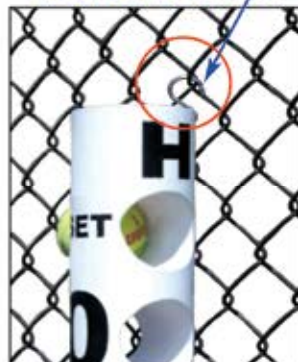

SC-W White ; # SC-BK Black
SC-B Blue ; # SC-G Green
SC-SI Sign (Home-Visitor)

MOUNT ON NET For square posts

MOUNT ON FENCE with hook

- Parts are made with durable PVC plastic - no parts to rust.
- Installs to tennis net post with supplied stainless steel clamp
- The top portion lifts from the stainless steel tube for storage
- The flip cards are made to look like a tennis ball. Flip cards are from #0 to #9.

Set flags rotate up and down. Two name plates are included for players names to be written and can be erased with a dry erase marker.

SCO-1 (1/cs)
SCO-N (replacement numbers 1-9)

Portable Score Keeper

- Pack in your bag - very light
- Installs by pushing over net header
- Numbers from 0 to 9

Patented stainless steel wire holder. Place at end of net so it is not in the court lines.

SCO-3 (1/cs)

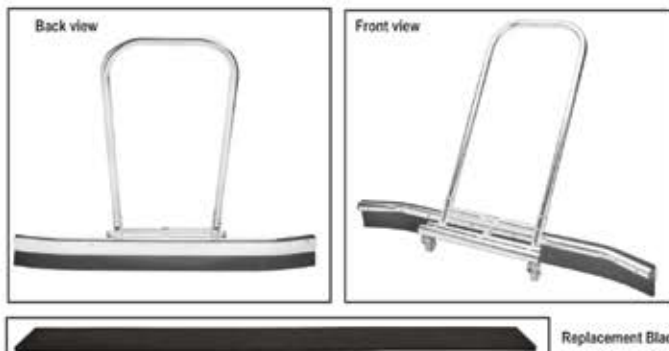

COURT PRODUCTS

Rain Sweep™ with extra blade

- For fast water removal, Rain Sweep is the best solution.
- This is a top of the line court squeegee. It has a 5 foot long blade which curves at the ends so it scoops the water forward.
- Fast action, solid casters glide on hard court for easy sweep.
- It will not scratch or mark the court.

Aluminum frame is light weight with no rusting problems. The rubber blade is 5" high and is made of EVA closed cell, dense foam for long lasting reliable performance. **The unit comes with 2 blades.** When and if they both wear out, a replacement can be purchased.

TDRI-RS (1/cs), Rain Sweep with 2 blades
TDRI-RS-R, replacement blade (1/cs)

Ready Roll Black Squeegee

- More durable and longer lasting than PVA rollers
- Made of revolutionary Synthetic Rubber Composite
- Immediately ready to push water off court. No wetting necessary.
- 105 mm wide diameter - the largest in the market

Tourna Dri PVA Squeegee

- **TOURNA DRI** is a superb roller squeegee
- The frame and housing is made of gray powder coated sturdy steel design which will prevent warping, bending and rusting.
- The "T" is made of stainless steel to prevent breaking at stress point.

TDRI-1 Squeegee and roller (1/cs)

36" PVA Replacement Roller. Fits other 36" squeegees
TDRI-R - roller (1/cs)

Line Sweep

NEW!

- Line Sweep is designed to sweep clay tennis court lines
- The frame is made of rust free aluminum construction
- Designed angle permits the brush to dig in and remove hard to clean spots on the court tape
- Replacement brush available for replacement

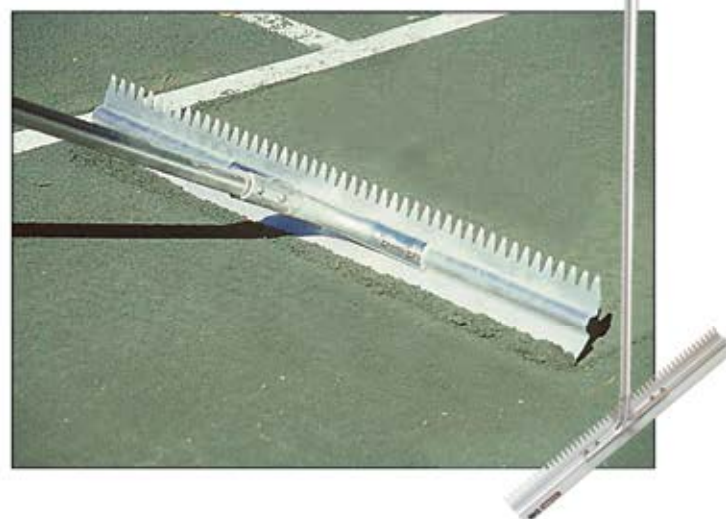

Lute Scarifier

NEW!

- Scarify, level, smooth, topdress and clean clay tennis court
- Straight edge lute on one side - serrated scarifier on the other
- Very light yet very strong. Made of aluminum. 33" wide

LUT-1, Lute Scarifier (1/cs)

Tray & Basket

TOURNA

SINGLES STICKS

Time-tested court valet system which every tennis court needs to have one. Periodically it needs to be replaced.

TRAY - made of high quality UV stabilized poly. This is a one piece design that attaches to net post with supplied stainless steel clamp.

BASKET - made of sturdy plastic in USA. We drill drainage holes and attach special hooks to the basket for it to hang below the Tray. Basket can also hang on the fence. Holes are drilled in the bottom of basket to allow rain water to drain out. Available with matching color of Tray in green and black.

TRY-BK, Black Tray with clamp (1/cs)

TRY-G, Green Tray with clamp (1/cs)

BAS-BK, Black Basket (1/cs)

BAS-G, Green Basket (1/cs)

TNB-BK, Black Basket and Tray set, (1/cs)

TNB-G, Green Basket and Tray set, (1/cs)

Fence Tray

Great for outdoor valet

- Quickly hooks on to a fence
- Holds balls, drinks. Towels hang on end clips.
- Made of quality UV stabilized poly
- Available in black only

It is mandated for singles play in tournaments.

- Designed to work on clay, grass, carpet and hard court surfaces
- Bottom pad prevents digging into clay, grass or carpet
- Made of aluminum so never rusts
- Durable and very light weight
- Two pieces screw together for un-assembly to fit in player's bag

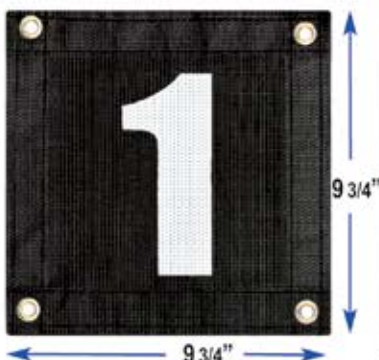

How it works: position 3 ft from singles line. There is a line mark on stick to mark 3 ft for easy guide. (Net post is 42" high - same height as the Singles Sticks).

Court NUMBERS 1-24

- Printed on windscreen material in white numbers.
- The 9 3/4" square is grommeted on all corners for easy installation with zip ties.
- Attach to nets or fence

CNO-1 to # CNO-24 number

NET CHECK

Measures height of a net. Plastic measure tool folds neatly for easy storage. The lip at top of Net Check is designed to rest on top of the net when checking net height.

NET-1 (1/cs)

Opens to 3 ft net height

What you need to know about Tennis Nets

THE WEAKEST LINK:

The tiny rows of thread that stitch the net headband to the net body get the most abuse. They are pounded every day by ball strikes. This will weaken the stitching and make it come apart. You may have seen the net separate from the headband as if it was ripped. This occurs when inferior stitching is used. Make sure that the net description states that it has at least 4 rows of polyester stitching which is UV treated to prevent damage from the sun. The sun breaks down unprotected thread and the constant pounding by tennis ball further breaks it down.

THE NET HEADBAND:

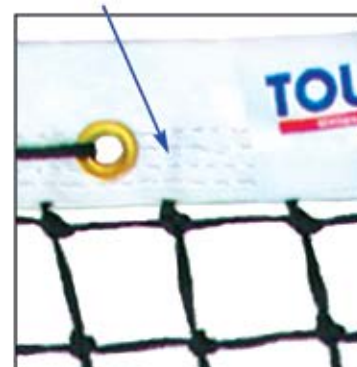

Most headbands are made of vinyl or polyester materials. Only good quality grades of the two materials create a lasting headband. Poor grade becomes brittle causing cracks and it will fall apart. Inferior polyester will fray and fall apart long before the rest of the net has reached its useful life.

THE NET BODY:

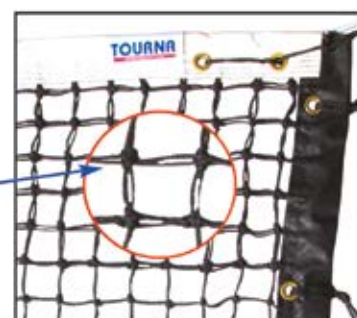

Most of the abuse the net has to absorb is in the top area where the stitching and the headband are pounded. Most shots that impact the net are at the top and center from the serve. This is why we recommend a net with at least 3.0mm net body with a double net body for the first six rows. This extra layer of material provides double protection where it is needed the most.

SIDE-STICKS: A good quality net will have fiberglass side-sticks, and not wooden sticks which eventually will warp and rot.

Tiny rows of thread

Double net body for first 6 rows

Single net body to bottom of net

Poly Double Braided Tennis Net

**** Top Quality - MADE IN INDIA ****

PICKLEBALL

Pickleball is a fast growing game for adults and young. The game is easy to learn to play. All that is needed are a net, plastic balls and paddle.

Court dimensions are illustrated below. The game starts with a server serving underhanded diagonally to the opponent's service zone. Points are scored by the serving side only when opponent fails to return the ball in bounds.

Server continues to serve, altering service courts, until the server faults. Game is won by who reaches 11 by a 2 point margin. Players can not enter the Kitchen Area to hit the pickleball - that is a non-volley zone.

Game is played indoors or outdoors. The balls for indoor play have 26 holes and are made of softer material. Balls for outside play have 40 larger diameter holes and are harder. Various colors of balls are used for indoor play.

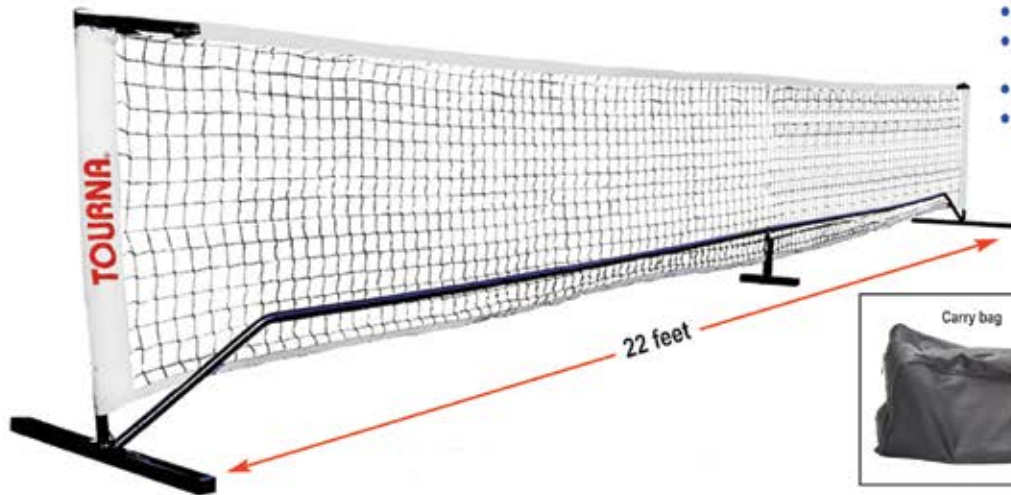

TOURNA

Pickleball Portable NET

Official size tennis net for Pickleball court that measures 22 ft wide, 36" high on sides and 34" in the middle. Portable and lightweight for quick and easy set up. Set it up on neighborhood street for a Block Pickleball Party.

XL - waist 36" to 40"

Pickleball Paddle

EDGE GUARD Woven durable

- Protect the edge of your paddle from court scrapes
- Longer wear protection with sturdy woven material. Made with a "V" cut (sawtooth) on tape edges. The "V" cut minimizes tape wrinkling over curved edges when applied.
- The top side of the woven material has a printed distinct pattern design. The bottom side has a layer of sticky polyurethane which firmly adheres to the paddle and stays on.
- Package covers 2 paddles

Available in 3 sizes: # P-EG-S 5/8" (20mm) wide, for 1/2" (15mm) paddle
 # P-EG-M 3/4" (23mm) wide, for 5/8" (16mm) paddle
 # P-EG-L 1" (26mm) wide, for 3/4" (19mm) paddle
 Pack: 6/box, 2/package

Pickleball Paddle

EDGE GUARD Smooth Material

- Protect the edge of your paddle from court scrapes
- Smooth plain surface on the outside. Bottom layer is made of sticky polyurethane that firmly adheres to the paddle.
- Made of wear protection material. Comes with a "V" cut (sawtooth) on tape's edges. The "V" cut minimizes tape wrinkling over curved paddle edges when applied.
- Package covers 2 paddles

Available in 3 sizes: # P-EGS-S, 5/8" (20mm) wide, for 1/2" (15mm) paddle
 # P-EGS-M 3/4" (23mm) wide, for 5/8" (16mm) paddle
 # P-EG-L 1" (26mm) wide, for 3/4" (19mm) paddle
 Pack: 6/box, 2/package

Pickleball

Lead Tape

- Adds extra Oomph by adding weight to the paddle
- It delivers punch and solid shots with less arm strain
- Adhesive backed for easy placement on paddle edge

Available in 1/4" (# P-LD) and 1/2" (# P-LD-2) wide rolls 72" rolls

1/2" wide

1/4" wide

 - The adjustment bead is small and slides to create a perfect fit
 - Loosen the bead and it becomes a leash to hang glasses from neck
- Made of nylon. Washable. Available in assorted colors.

TOURNA SWEATBANDS

We knit our sweatbands in the USA!

Our plant is located in Mt. Airy North Carolina, where they filmed the TV program Mayberry with Andy Griffith and Don Knotts. We knitt with 94% cotton. Why? Cotton absorbs sweat. Imported bands from China are knitted with polyester, acrylic, nylon yarn (plastics). Plastics do not absorb sweat. What a concept! Creating a sweatband that does not absorb sweat. We use non allergenic, recycled cotton. It helps in saving the planet and keeps jobs in USA.

Sweatbands

Wristbands

2 ply thick

- Double cotton content
- Thick and plush so they soak up the moisture.
- 94% cotton, 6% elastic.
- Knitted with non-allergenic, plush cotton in our USA knitting plant

Available in colors below:

LIQUI TOWEL® Cooling Bandana

- Put it in a cooler with ice water and pull out to cool
- Instantly cools & refreshes when in hot and humid sport competition, workouts, or strenuous activities.
- Contains no harsh chemicals, fragrance, or alcohol.

Advanced PVA synthetic chamois material creates cooling. Hand wash with mild soap and rinse. Don't air dry. Place into zip lock bag or tube while still wet. Dampen before use.

SIZE: 34 cm x 81 cm long x 2 mm thick; # COOL-B-T - Blue, in plastic tube

MONEY BACK GUARANTEE

If it doesn't cool after following our instructions, return the product with purchase receipt for refund.

Place around neck to lower the body temperature

LIQUI COOL® Cooling Bandana

- Keeps your body temperature cool on the hottest days
- Just soak in cold water for 10 minutes. Crystals embedded in bandana expand 400 times and turn into a cooling gel
- It will stay cool for 12 hours or more

To clean, wait until dehydrated (two days). Hand wash with mild detergent, air dry, and use again. Millions sold. We cut and sew and embed the crystals in USA.

Colors: white, blue, black

LIQ-X (6/cs)

Country Flag Bands

- A great way to display country pride during sporting events
- Fans wear them to Tennis Davis Cup, Soccer, Hockey, Basketball or during national holidays, parades, or rallies.

Made of 80% cotton, 10% nylon, 10% elastic. Plush and comfortable and durable.
Measures 4" long. Two wristbands sold as a pair in a poly bag with header.

SK-XJ

Athletic Tape

- High quality, cotton, breathable tape
 - Protect injured joints.
- Athletic trainers, professional players and weekend players rely on it.

Size: 1 1/2" x 10 yards; # AT-1 White (6/cs)

Elastic Bandage

- Made of cotton and elastic
- Assures excellent stretch for compression
- A trusted remedy for sprains and strains

Size: 3" x 4.5 yards; # EB-3 (6/cs)

Pro Wrap

- The ultimate compression wrap
- User controls the compression and support
- Extra strength (3" x 30" long) elastic wrap

It is constructed with breathable nylon wool fibers and elastic. Comes with Velcro closure. Durable and reusable. One size fits all.

DPW-1 White (6/cs)

Knee Strap

- Reduces pain in the knee
- Applying uniform compression on the tendon below the knee cap
- The constant pressure improves the patella tracking and elevation

It is made with stretch material with Velcro closure. One size fits all.

KST-T (6/cs)

Fits directly below the knee cap

Finger Wrap

- Very thin, porous cotton mesh which sticks to itself when wrapped over
- Promotes healing of cracked skin on fingers.

Dry skin causes most of the skin cracks. This porous material breathes and thus promotes faster healing. New roll is 90 feet long now.

#FW-1 White (6/cs)

Wrist Control

- Supports weak or injured wrist
- Made of stretch elastic material
- Velcro closure for pressure adjustment
- One size fits all

#WC-1 (6/cs)

Wrist Support

- Features a thumb restraint to keep the support in place
- Elastic construction allows desired pressure application to wrist
- One size fits all

Wash in cool water

#WS-1 (6/cs)

Elbow Guard Rx

- Relieves elbow pain (commonly called Tennis Elbow and Golfer's Elbow)
- Strap stretches and moves with the arm and keeps constant pressure on tendons
- Does not slide down arm as one sweats
- Comfortable to wear

#GDRX-1 (6/cs)

AIR CELL

- Air pressure pillow delivers 50% more pinpoint pneumatic pressure to the painful elbow joint tendon
- Made of elastic stretchable material for constant pressure
- The breathable material creates comfortable wear

One size fits all

#CEL-1 White (6/cs)

Wrist Key Holder

- Can wear on wrist, ankle or belt
- Memory vinyl coil stretches and springs back every time
- Use to hold locker key when showering

Available in black, clear, white, yellow.

KH-1 Assorted (6/cs)
